

Hyunjun Hwang

(US) +1-737-296-5008; (KR) +82-10-6668-7619; hjhwang@utexas.edu;

RESEARCH INTEREST

Choice behavior analysis with econometric models

- Physical activity and walking behavior related to transportation
- Policy perception analysis and policy design
- Spatial analysis framework

EDUCATION

University of Texas at Austin

(Current) Ph.D, Civil, Architectural, and Environmental engineering December 2026 (Planned)
Dissertation: Modeling of Active Travel Behavior: Empirical and Methodological Advances

Seoul National University - Seoul, Republic of Korea

(Graduated) Master, Department of Civil and Environmental engineering February 2020
Thesis: A Vehicle Routing Problem of Demand Responsive Feeder Service Considering Users' Mode Choice
Cumulative GPA: 4.15/4.30

(Graduated) Bachelor, Department of Civil and Environmental engineering February 2018
Cumulative GPA: 3.82/4.30; Graduated Cum Laude

Seoul Science High School for gifted students – Seoul, Republic of Korea February 2012

RESEARCH EXPERIENCE

Research paper

Hwang, H., I. Batur, D. Robbennolt, A.J. Haddad, M.G. Rodriguez Ocana, R.M. Pendyala, and C.R. Bhat, "A Tale of Two Perspectives: The Mileage-based User Fee Conundrum," *Transportation Research Part A* (Accepted), <https://doi.org/10.1016/j.tra.2026.105141>

Hwang, H., and C.R. Bhat, "Spatial Ordered Probit Model with Heteroscedastic Skewed Errors and Exogenous Spillovers," *Transportation Research Part B* (Under review)

Conference presentation

Hwang, H., and C.R. Bhat (2026) "A Spatial Ordered-Response Model with Localized Spillovers and Asymmetric Errors," International Choice Modelling Conference (ICMC), Gold Coast, Australia. [Oral]

Hwang, H., I. Batur, D. Robbennolt, A.J. Haddad, M.G. Rodriguez Ocana, R.M. Pendyala, and C.R. Bhat (2026), "A Tale of Two Perspectives: The Mileage-based User Fee Conundrum," Transportation Research Board 105th Annual Meeting, Washington, D.C. (No. 26-04627). [Poster]

Hwang, H., I. Batur, F. Yu, D. Robbennolt, R.M. Pendyala, and C.R. Bhat (2026), "Understanding Public Perceptions of Congestion Pricing - A U.S. Perspective," Transportation Research Board 105th Annual Meeting, Washington, D.C. (No. 26-04533). [Poster]

Hwang, H., A.J. Haddad, and C.R. Bhat (2025), "Multivariate Analysis of Walking Habits After COVID-19," Transportation Research Board 104th Annual Meeting, Washington, D.C. (No. 25-01540). [Poster]

Hwang, H., A.J. Haddad, I. Batur, S. Saxena, R.M. Pendyala, and C.R. Bhat (2024). "An Analysis of Walking Frequency Before and After the Pandemic." Transportation Research Board 103rd Annual Meeting, Washington, D.C. (No. 24-05715). [Poster]

Hwang, H., A.J. Haddad, I. Batur, S. Saxena, R.M. Pendyala, and C.R. Bhat (2024). "An Analysis of Walking Frequency Before and After the Pandemic." International Choice Modelling Conference (ICMC), Puerto Varas, Chile. [Oral]

Hwang, H., A.J. Haddad, I. Batur, S. Saxena, R.M. Pendyala, and C.R. Bhat (2024). "An Analysis of Walking Frequency Before and After the Pandemic." International Association for Travel Behaviour Research (IATBR) Conference, Vienna, Austria. [Oral]

Hwang, H., S.H. Cho, S.Y. Kho, and D.K. Kim (2019). "Development of a Coverage Area Index for a Transit Center Using Smart Card." Transportation Research Board 98th Annual Meeting. (No. 19-01084). [Poster]

Hwang, H., K.U. Jang, S.W. Yoon, and S.Y. Kho (2018). "Developing Analysis Index for Coverage of Metropolitan Public Transit Hub Using Smart Card Data." The 2018 Korean Institute of ITS Conference (in Korean). [Oral]

Research project

Research assistant, *Identify and Evaluate Innovative Pedestrian Safety Countermeasures for Rural and Nighttime Environments*, funded by TxDOT 2024 - 2026

Research assistant, *Determine Feasibility and Methodologies of Incorporating Third-Party Traffic Data into Transportation Planning*, funded by TxDOT 2022 - 2024

Research assistant, *National travel survey for OD database in Seoul metropolitan area*, funded by The Korea Transport Institute 2021 - 2022

Research assistant, *Update of national passenger OD database in Seoul metropolitan area (2020)*, funded by The Korea Transport Institute 2020 - 2021

Research assistant, *Establish mid-range master plan for transportation in Seoul 2022-2026*, funded by Seoul metropolitan government 2020 - 2021

Research assistant, *Proactive safety support system for vulnerable pedestrians based on the pedestrian behavior big data using image monitoring technology*, funded by Seoul R&D program 2018 - 2019

Research assistant, *Development of infrastructure construction technology of ICT convergence smart transportation systems for urban arterial road management*, funded by Korean government 2018 - 2019

Patent

Selection Method for Network Sensor Location and System Using Thereof, Kho, S. Y., Kim, D. K., Yang, J. H., **Hwang, H.**, Korean Patent 102059780000 (2019)

TEACHING EXPERIENCE

Tutorial Assistant (GAUSS Lab), *Linear Regression and Discrete Choice Methods*, taught by Prof. Chandra R. Bhat, UT Austin — Fall 2024, Fall 2025

- Conducted GAUSS programming tutorials to support students' hands-on implementation of econometric methods, and provided related coding assistance

TEACHING DEVELOPMENT

Teaching Preparation Series, Center for Teaching and Learning, UT Austin — Spring 2025

- Completed a multi-session program on course design, inclusive teaching, and evidence-based pedagogy.

HONORS AND AWARDS

The Korean Government Scholarship Program for Study Overseas 2022 – 2024

Certificate of commendation, Korean Society of Transportation 2018

Outstanding thesis award (2nd prize), Seoul National University Department of Civil and Environmental engineering

National Scholarship for Science and Technology (Full scholarship)

- Funded by Korean government, recommended by Seoul National University

2017

2012 – 2018

WORK HISTORY

Researcher, The Seoul Institute department of transportation system Research

2020 - 2022
